# WILSON'S GRAND PRIZE COLLECTION FOR 1893.

\$10.00 Worth of the Choicest and Best Seeds for \$5.00.

## THE GREAT FREEMAN POTATO GIVEN AWAY

With \$100.00 in Cash Prizes for the Largest Yield.

Our object in sending out this collection of seeds is to deal directly with large gardeners, and to give them the benefit of our wholesale prices. In order to do this we have put up boxes of our best and choicest Garden, Field and Vegetable Seeds and have selected such kinds as are most generally used in large families. These boxes are all put up and ready to ship, consequently we can make no changes in them. The seeds are all warranted fresh, genuine, true to name, and if bought at our regular catalogue rates would cost over \$10.00. They will all be nicely labelled, carefully packed in strong light boxes and sent to any address on receipt of \$5.00.

The Great Freeman Potato Given Away. No other potato since the introduction of the Early Rose has caused as much sensation in this country as the Freeman. When first introduced in 1891 they sold readily at \$3.00 a pound, and all who bought them, even at this price, were well pleased with the investment. We have always taken pride in introducing good new potatoes, and have probably done as much in this line as any house in America. On page 16 in our '93 catalogue will be found a full description of this wonderful new potato. As we believe it is destined in the future to be worth thousands of dollars to the people in this country, we are anxious to have it introduced as widely as possible. Therefore, to any one who sends us \$5.00 for our \$10.00 box of Seeds, we will make them a present of five pounds of the great Freeman Potato. These potatoes will be carefully wrapped in frost-proof paper and warranted to reach you in good condition. AND FURTHER THAN THIS, in order to encourage the introduction of this grand new potato and to see what it will do with the best cultivation, we will give \$100.00 in Cash Premiums for the largest yields from the five pounds contained in our prize collection box. Competition is open to all. You can't all get the premiums, but you will all get the potatoes, which in a year or two would be worth more than the whole \$100.00. The buyer must pay all express or freight charges.
